SUMMARY

Full-stack developer with hands-on bootcamp experience and an insatiable curiosity for how web applications work. Eager to apply my skills and continue learning.

FINAL PROJECT

HairBNB — hairbnb.onrender.com

Developed a full-stack property rental platform replicating Airbnb's core functionalities and user interface.

- **Implemented** the user registration and authentication system, ensuring secure login and data management.
- **Designed** responsive (and hopefully pixel-perfect!) components for property listings, search filters, and booking forms, enhancing user experience across devices.
- **Developed** the guest booking flow, including calendar availability, and booking confirmations.
- **Created** the host dashboard, enabling property management, listing creation, and booking management tools.
- **Collaborated** with a team of 3 developers using Git for version control.

RELEVANT WORK EXPERIENCE

System Administrator, IDF

2008 - 2011

- Administered a network with 3000+ endpoints and 100 servers
- Configured and maintained Windows Server systems, including DNS, DHCP, Active Directory, and Group Policies.
- Installed hardware components and provided technical support for system administration-related issues.

SKILLS

Frontend

- HTML
- CSS
- JavaScript (ES6)
- TypeScript
- React & Redux
- SASS

Backend

- Node.js
- Express
- Restful API
- MongoDB
- Socket.IO

EDUCATION

2023—2024

Full Stack Development
Bootcamp Graduate -
“Coding Academy”

LANGUAGES

- Hebrew - Native
- English - Advanced
