Giv'atayim, IL | Github

SUMMARY:

Full Stack Developer with hands-on experience building end-to-end web applications and a strong background in technical instruction and code review. Experienced in working across the stack, understanding existing codebases, and collaborating in team environments to deliver correct, maintainable solutions.

TECHNICAL SKILLS:

Core Languages & Runtime - JavaScript (ES6+), TypeScript, Node.js

Frontend - React, HTML5, CSS3/SCSS (foundational experience with Angular and Vue.js)

Backend - Express.js, RESTful APIs, MongoDB

Tooling & Practices - Git, Code Reviews, Debugging & Refactoring, Working with Existing Codebases

WORK EXPERIENCE:

Full Stack Development Instructor / Technical Mentor

MISTERBIT Technological Solutions - March 2024 - Present

- Guided individuals and teams through the implementation of end-to-end full-stack web applications using modern JavaScript frameworks and Node.js
- Led technical instruction and sprint-level guidance, helping teams break down requirements, design flows, and complete complex project milestones
- Reviewed, debugged, and improved existing codebases, providing concrete feedback on structure, logic, and maintainability
- Conducted code reviews focused on correctness, readability, and adherence to agreed-upon development standards
- Mentored 100+ students and junior developers on practical coding techniques, scalable patterns, and effective problem-solving approaches
- Supported cross-team collaboration by facilitating technical discussions and helping unblock development challenges during project work

System Administrator - IDF

- Administered and supported a network environment with 3000+ endpoints and over 100 servers
- Configured and maintained Windows Server infrastructure, including DNS, DHCP, Active Directory, and Group Policy

EDUCATION:

Full Stack Development Bootcamp Graduate

2023 Coding Academy, Israel

LANGUAGES:

Hebrew - Native

English - Professional
